

Welcome to Puucho Live

Puucho Live is a simple web conferencing platform.

You can create your own Online Classroom/ Conference , or join others using a short and convenient link.

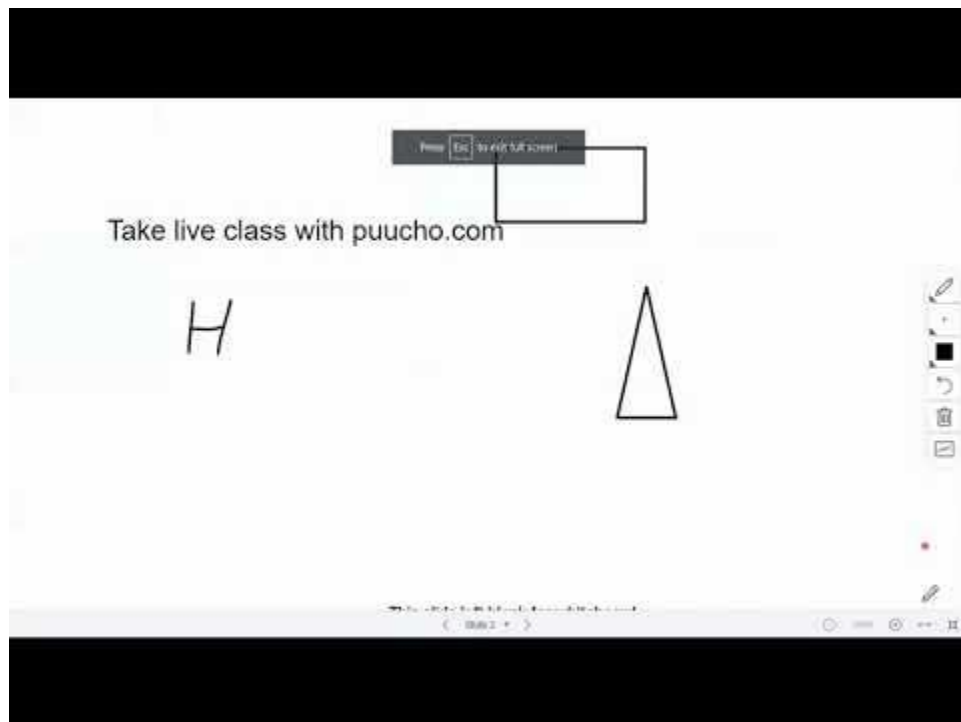

Start your own class now!

At Puucho live, we offer you with your **own classroom** and **web conferencing platform** with **1/3rd data consumption** as compared to other such platforms. Bring your students along using a small link and start your online class now. Additionally, we also offer you to **record your class** and **share it on WhatsApp, Facebook or YouTube**. Begin your conference/meetings with us in **rooms customized** as per your choice.

JOIN US NOW !!!

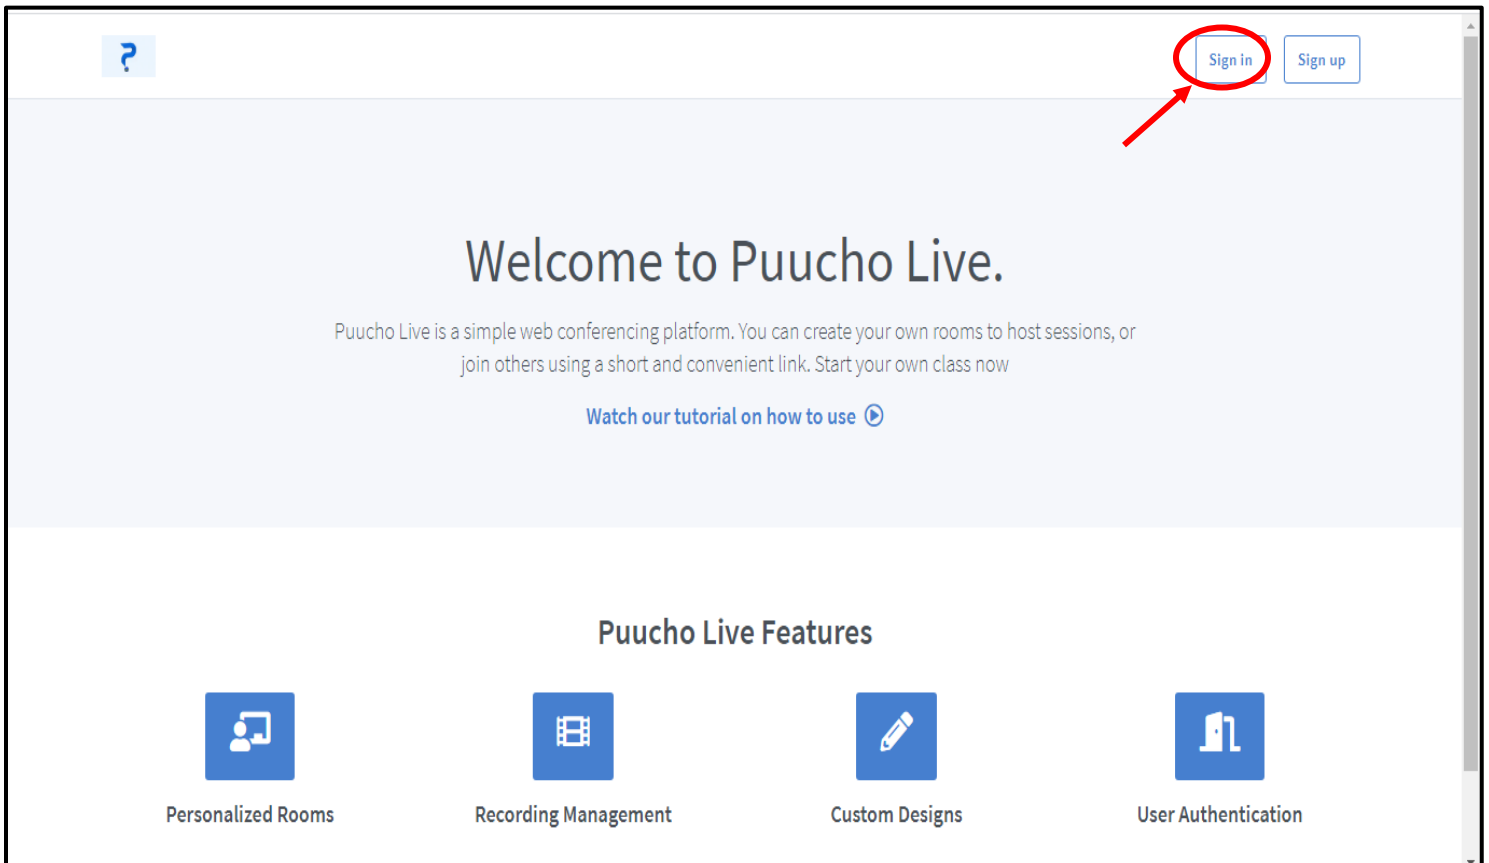

Make sure to use the latest version of Google Chrome/ Mozilla Firefox or Safari browser.

[Watch our tutorial on how to use](#)

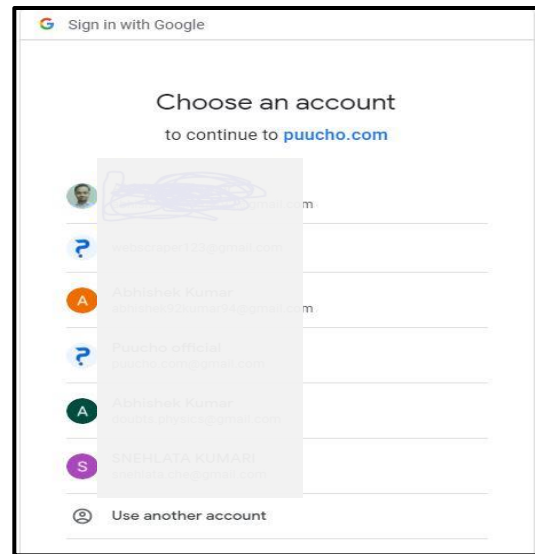

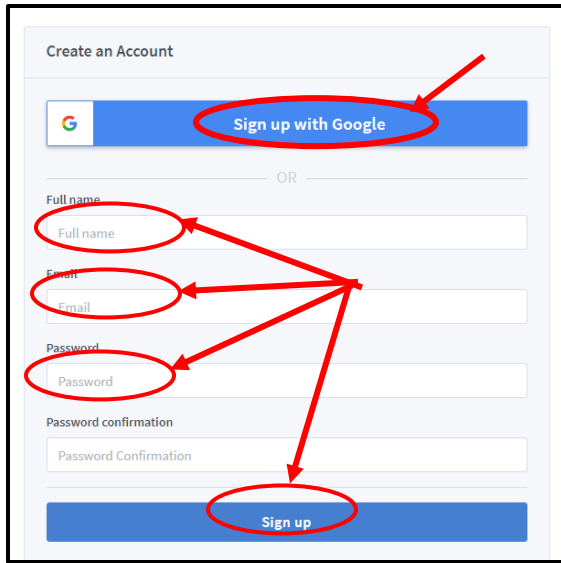

Here is a step-by-step guideline to start-with :

1. Visit <https://live.puucho.com/b/> and sign-up (one time) by clicking on the sign-up icon one the right top corner. Once you have signed up with us, you can begin you sessions by simply signing in to our website as per your convenient time. You can sign-in by clicking on the sign-in button on the right-top corner of your screen.

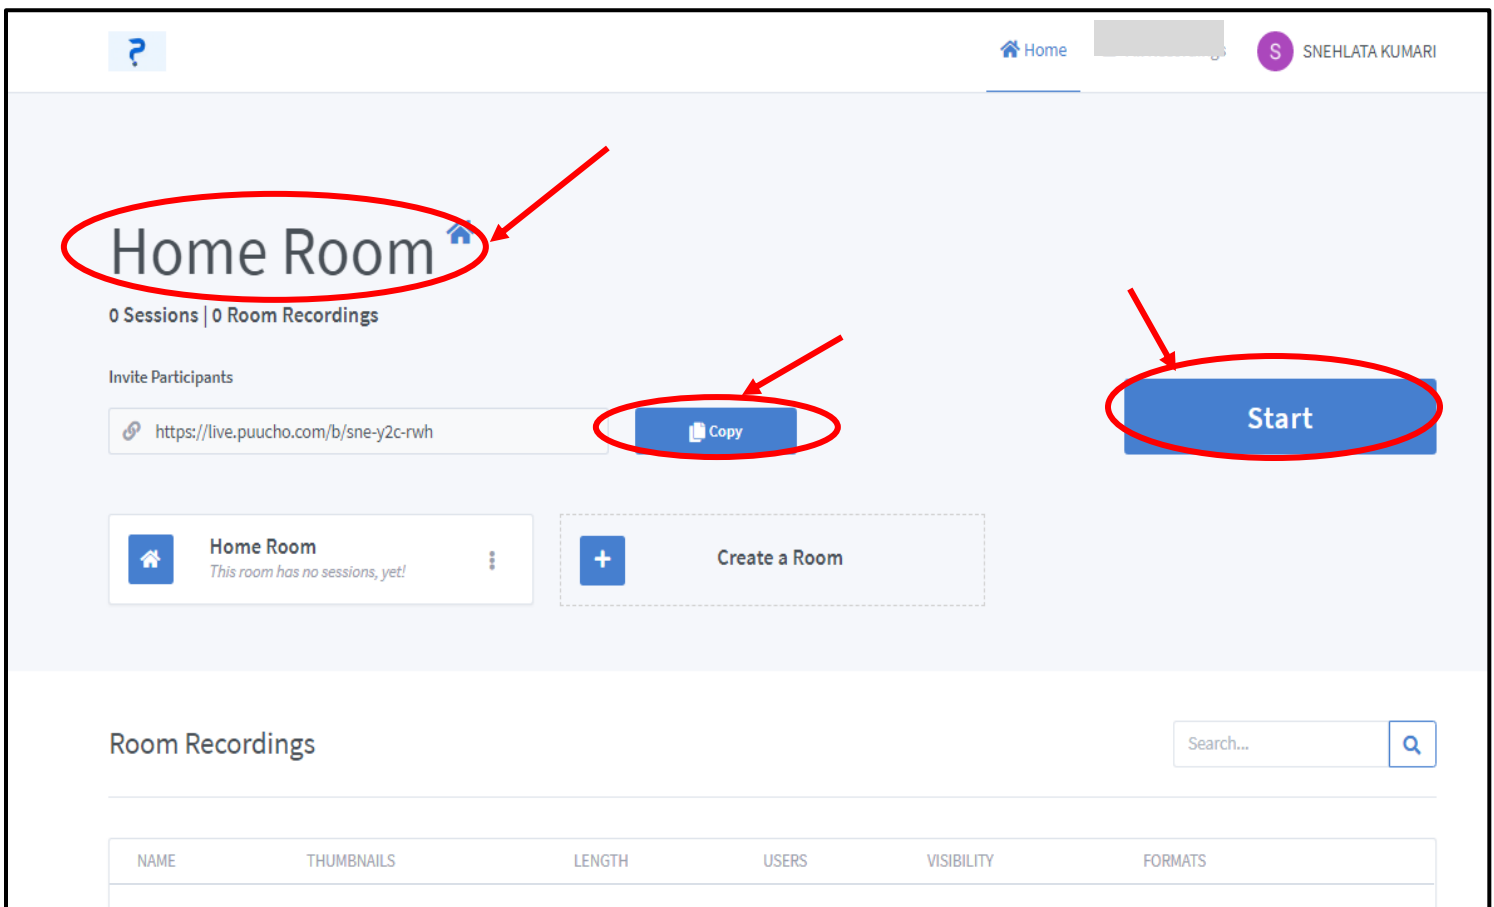

2. You can sign-up on our website either with your google account or by simply entering your details, viz., Your Name, email-id and password of your choice. Fill-in the details and click on the sign-up button at the bottom and you will be registered with us. Confirm your mail by clicking the link you received in your email.

Alternatively, if you choose to sign-up with us using your google account, you can do that by simply clicking on “Sign-up with google” on the first line of your screen. Choose any account of your choice and you are good to go..

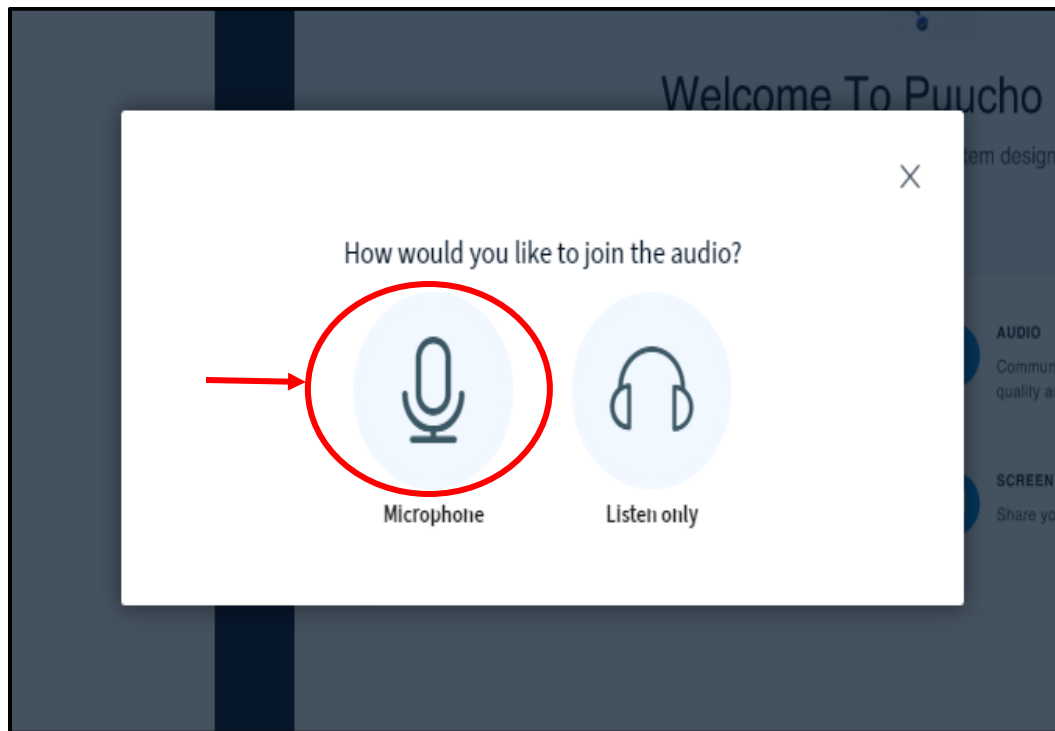

3. You are now on your **home page**.

Here you can set the name of your room(optional). Invite the participants by **copying and sharing the link** with your students/ fellows. Start your meeting/ class by clicking on the **“Start”** button. **Make sure that the participants are using the latest version of Google Chrome or Mozilla Firefox or Safari Browser.**

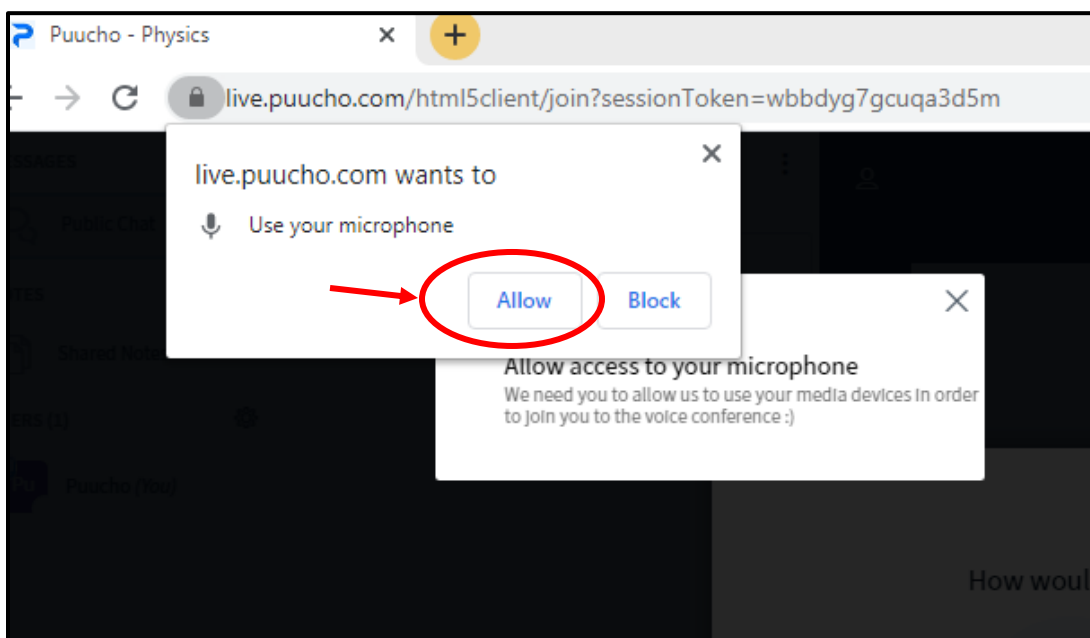

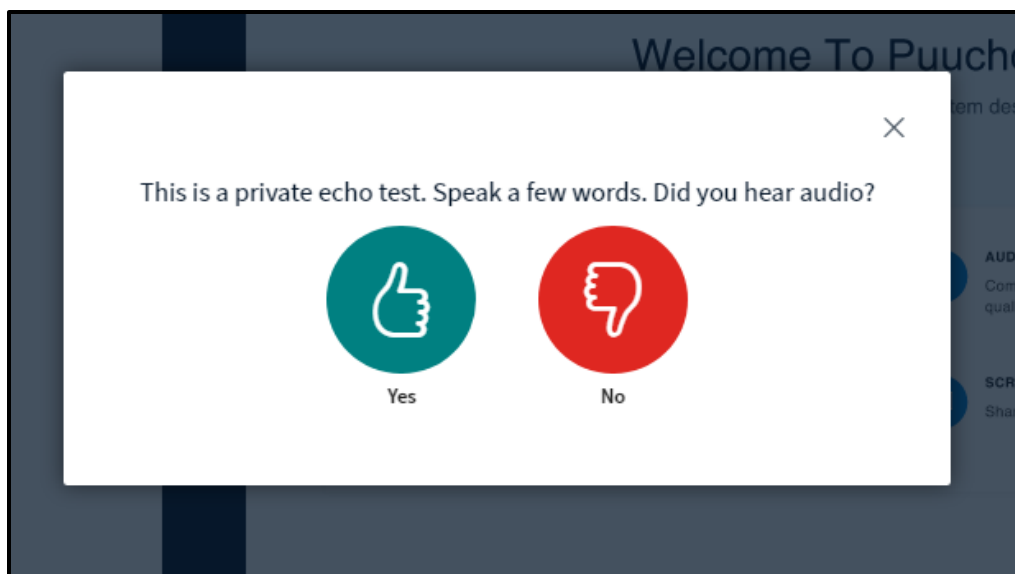

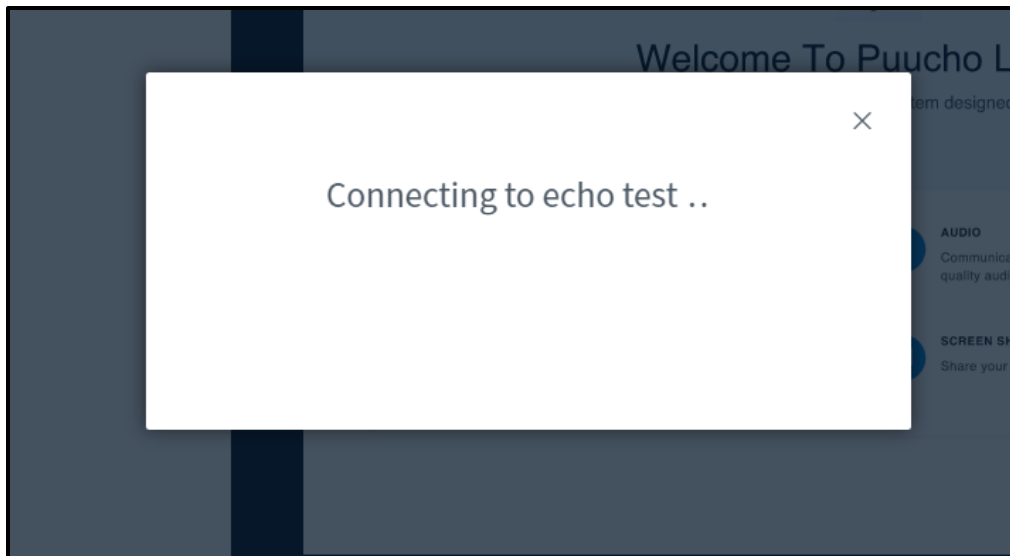

4. After clicking the Start button, a pop-up saying “**How would you like to join the audio ?**” will appear. Join the class by clicking on “**microphone.**”

Allow access to your microphone by clicking on “**Allow**” button appearing on the top left corner of your screen.

As soon as you allow microphone access, an **echo test** will be conducted where you need to speak something. The echo test is completely private so you need not worry about anything. Click on the “**thumbs up**” icon if you could hear your words.

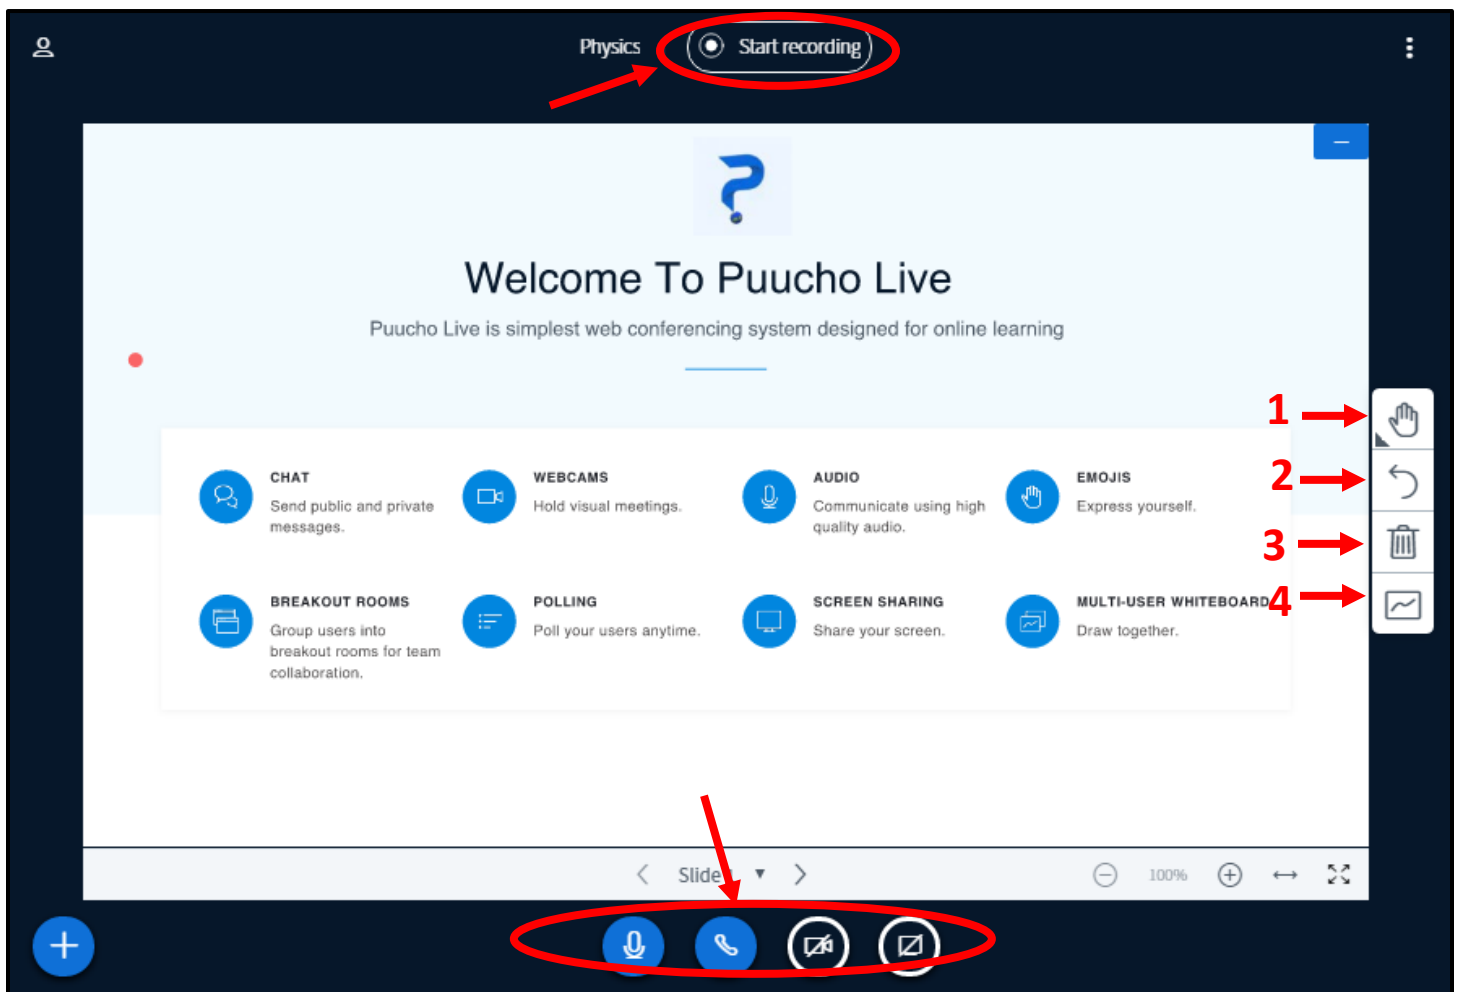

5. Your class has now started. If you are a student, you need not do anything else. Just follow your teacher.

Teachers, let me guide you through this platform now:

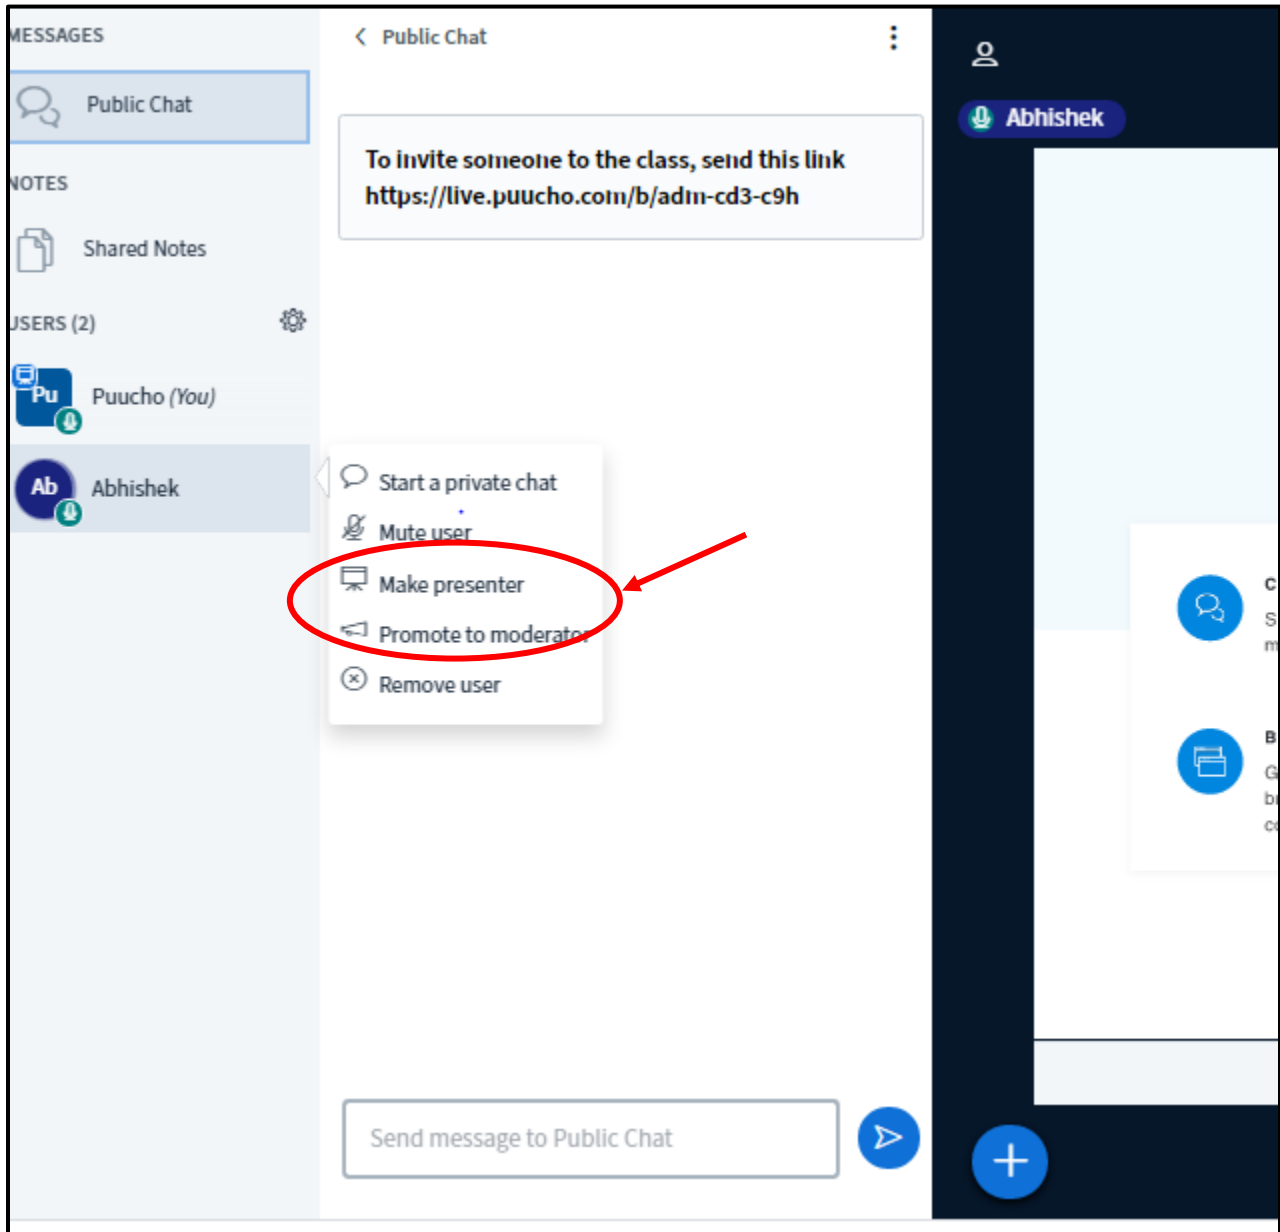

1. The screen which you must be seeing on your screen should be like the one given below. Let me introduce you to all the features first. You can select a **pen, or text, line, ellipse** or whatever you want to draw by using the **“hand icon”** given on the right side of the screen and write anything you want. If you **want to erase** what you just wrote, just click on the second icon. You can **delete everything** you wrote on the board by clicking on the third icon on the right side of your screen. By clicking on the fourth icon you can **start/stop whiteboard annotation** by all the participants.

You can also record your class by clicking on the **“start recording”** button on the top of your screen.

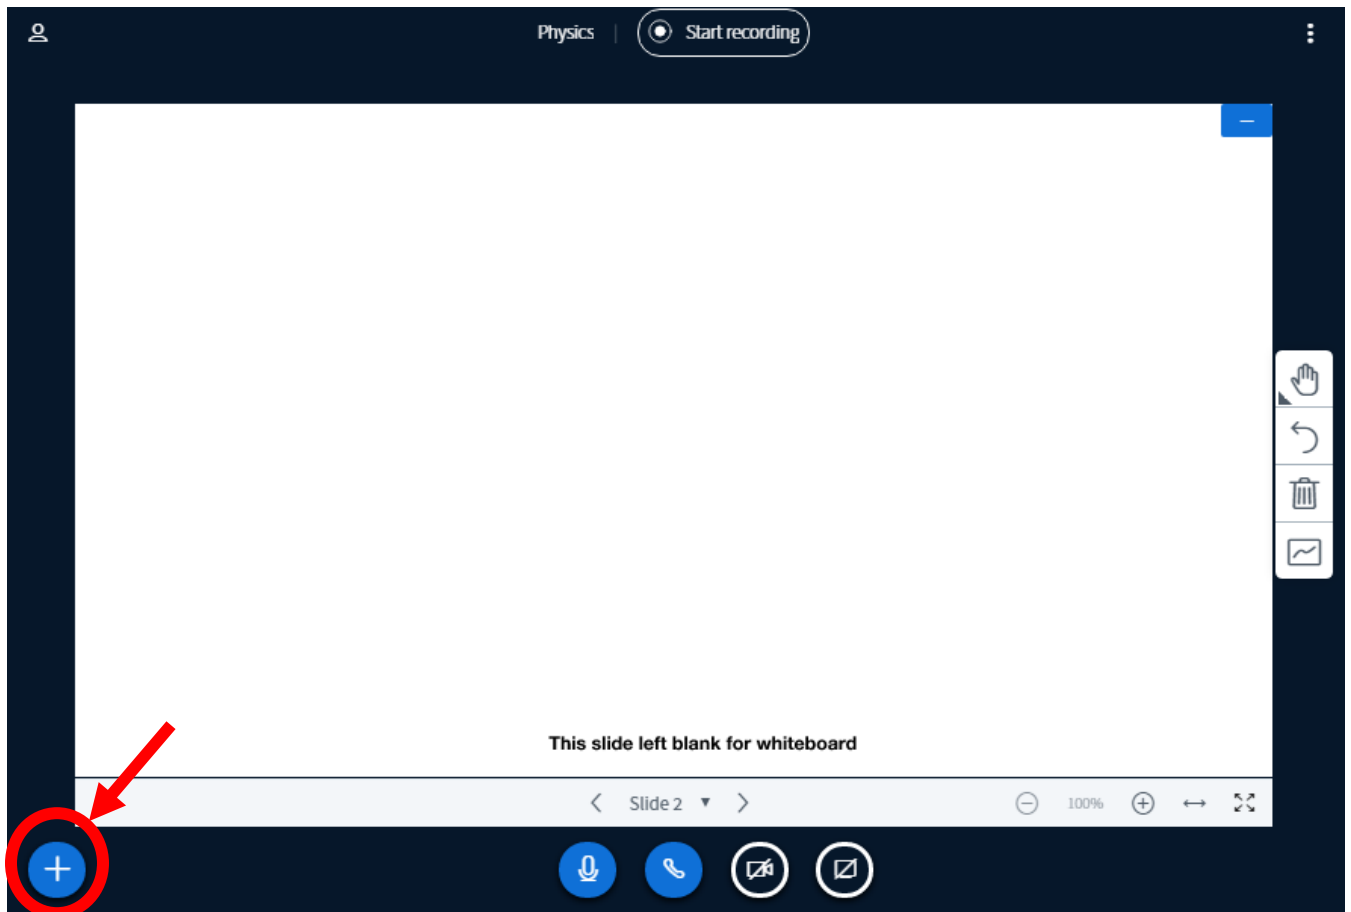

The first icon on the bottom is that of your microphone, you can switch it on or off. The third icon is for webcam and the fourth one is for sharing your screen. **Remember that only the presenter can share his screen. When you are teaching, you are the presenter.** Go to the next point to see how you can change the moderator.

2. You can **change the moderator** by clicking on the name of the person and **promoting him to moderator**. That way he will now be able to **share the screen**. You can also **mute any user** from the same button.

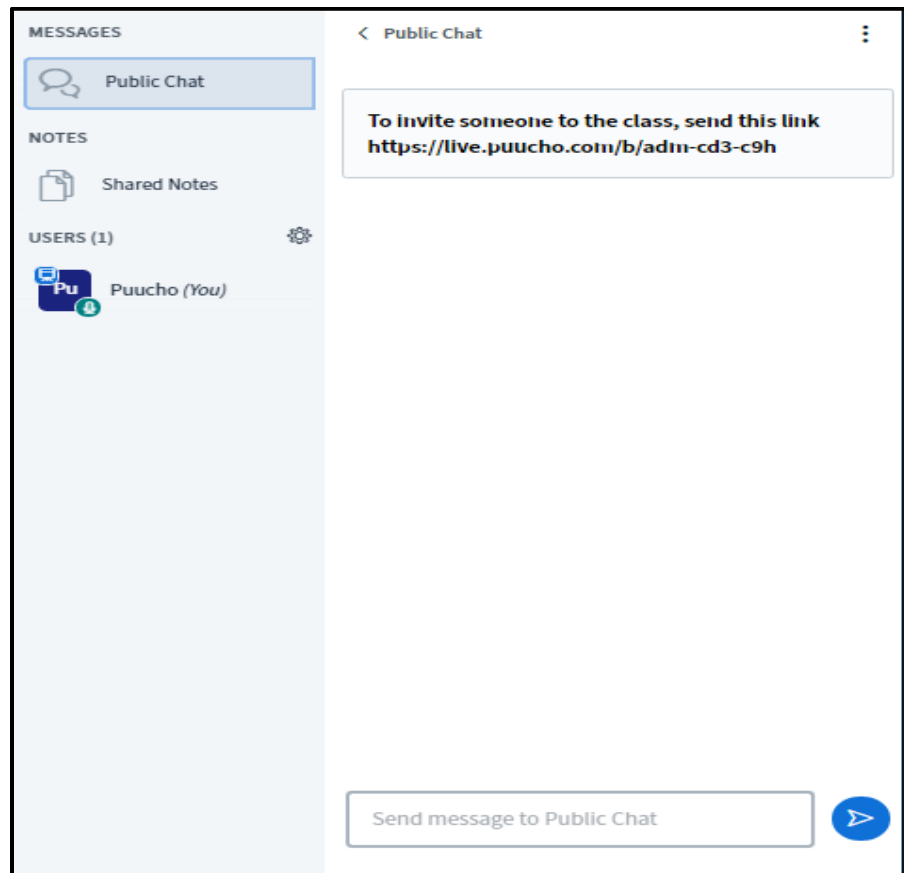

3. If you have a **digital pen**, you can easily teach by simply writing on the whiteboard we have provided. Rest functionalities are same as that mentioned in 1.

You can also **start a poll/ upload a presentation** or **share an external video** by clicking on the “+” icon on the bottom left corner of the screen.

4. The left side of the screen will appear as the one given below. The **names of all the participants** will be shown there. During the class, you or your students can chat either publically or in private.

That's all folks !!!

All the best for your class. **Start your online class now.**

Don't hesitate to contact us in case of any technical problem. Our team is always there to help you.

Write to us at pucho.com@gmail.com or ping us on <https://www.facebook.com/puchoji>

Do not forget to like us on Facebook. Help us grow !!!

Salient features of Puucho Live :

1. There is **no Limitation** on the **number of classes/ time of classes/ number of students/ Recording Sessions**
2. White board sessions are **simple looking without any complex buttons**
3. **Webcam integration** (you can integrate any camera , even external cameras are supported)
4. You can **use your touchpad or mouse** or your **mobile finger touch** but the best writing comes with a **digital pen**
5. **Voice Clarity** – Doesn't pick up surrounding noise while teaching
6. **Chat** – Your students can chat which can be public chat or private chat as well
7. You can **brand yourself** by setting the name of the chatroom
8. **Upload the presentation** – the default one is uploaded when you start the recording. You can replace that with your own. You can use pdf, ppt, word any format so that you can avoid writing and mark the presentation only
9. **Share your screen-** You can share your screen and show any file from your screen only
10. **Upload a YouTube Video** -you can make your class even more interesting by playing a YouTube video in between the class
11. **Recording of the class** may be only for you or **you can make it public** so that those who missed the class can view it later on
12. You can create a password for your room or **authenticate the user who is entering in your class**. This way your lectures will be delivered to those who you want to benefit

13. You can **use the whiteboard** we provide or just focus on the physical blackboard that you have
14. **Mute or unmute the users.** If you want to mute the user then you can mute them or unmute them when you want to listen to them
15. **Webcam sharing** can be done at **various quality** as per your internet connection
16. **Download the videos and upload them to YouTube/Facebook** if you want
17. Its **Free**
18. **Classroom Break-** in case you need to break one single classroom into 2 or many live , then you can do that as well
19. Your **students need not to sign-up** for attending the class , If you want to authenticate then only they have to sign in
20. **Students** have to **write their name** before entering the class so you know who is attending the class
21. If you allow the **multiuser whiteboard** then your students can also write on the board
22. **Payments-** You can collect your fees as well from the students if you charge for your classes.
We can arrange the **online payments** and shall give it to you immediately **without any deductions. No hidden charges.**
23. If you want then your students can show their face as well by **joining as moderators**
24. **Shared Notes**
25. **Clear Chat**

Start your online class now.

Remember to only use google chrome/ mozilla firefox/ safari browser for attending/conducting the class.

Puucho Live

An innovation to bridge the gap between high quality education and money

Read the answers to the given frequently asked questions to know more about us.

Frequently Asked Questions :

- 1. What kind of video resolutions does Puucho Live support ? Does it work in both low and high network scenarios ?**

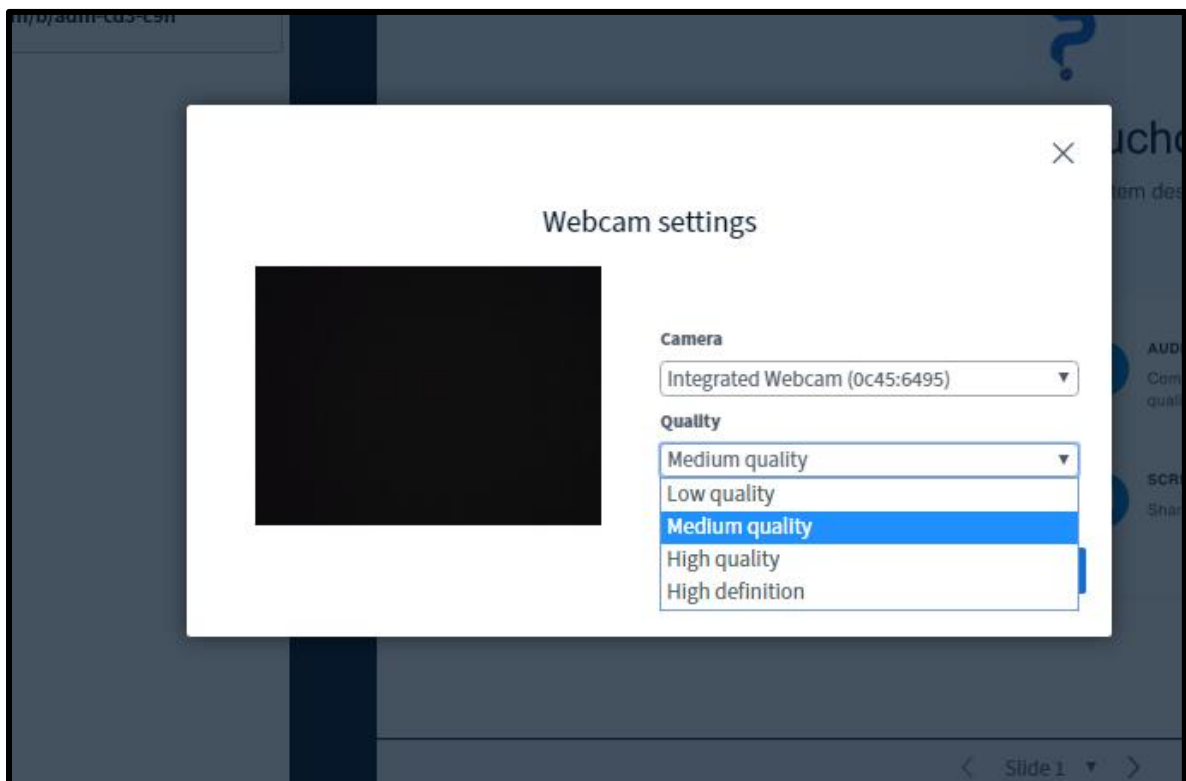

Answer.

Puchoo Live supports all the video resolutions. From the code we can accept any resolutions but for making it simple for the users we have grouped in 4 qualities

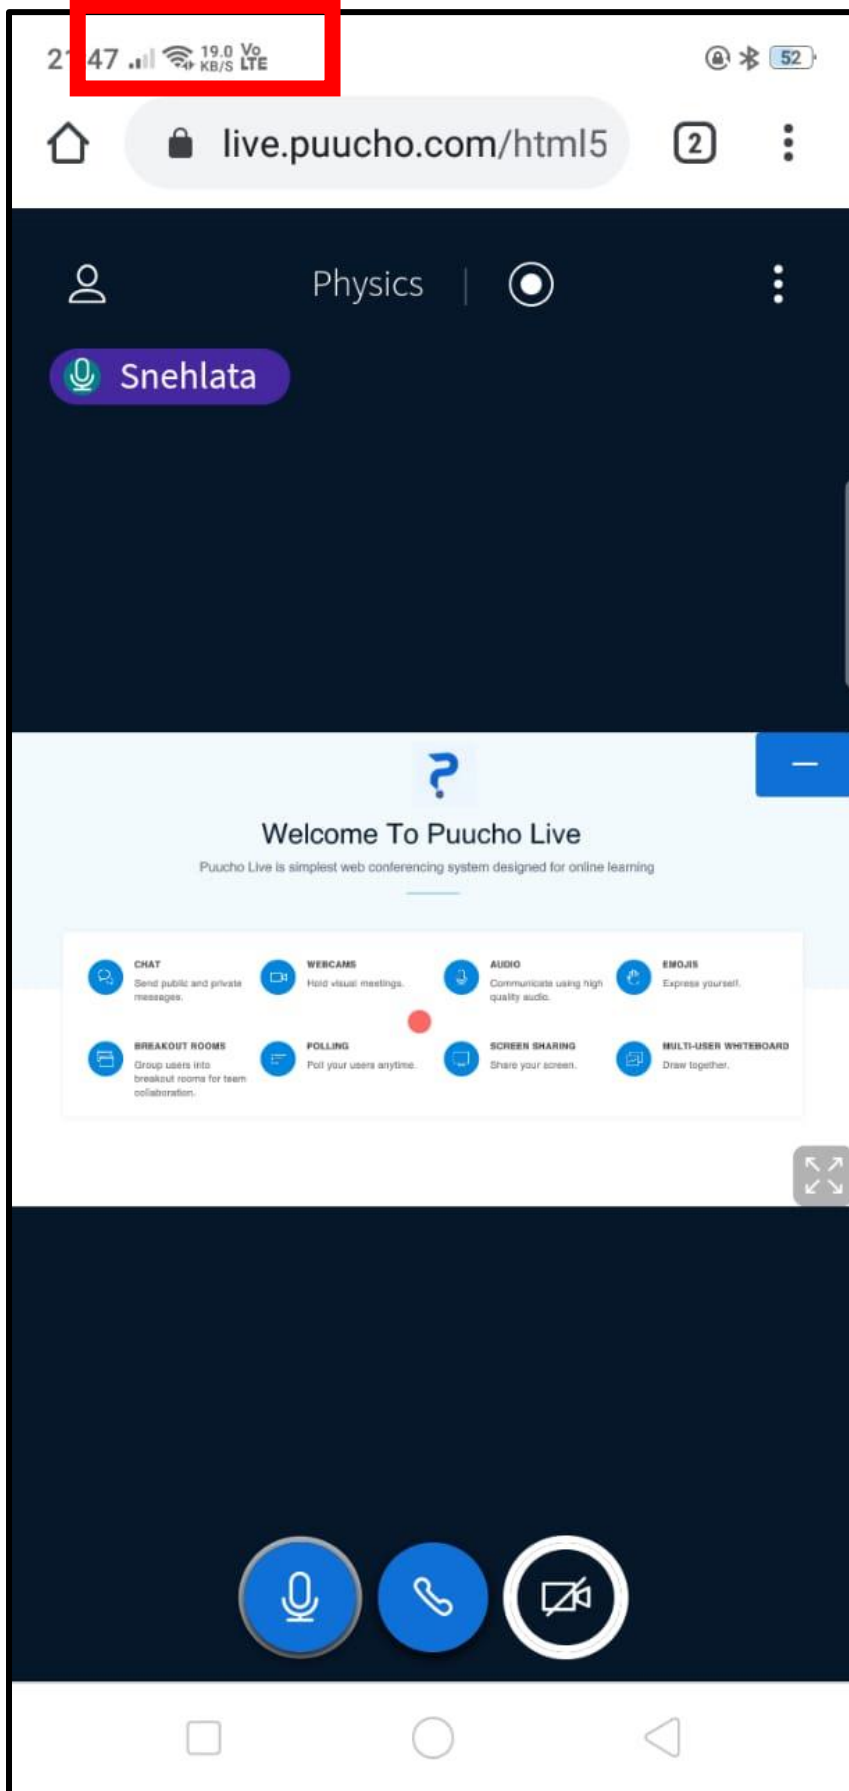

- Low Quality 320x240 Moderator/ teacher require approximately 0.25 Mbits/sec
- Medium Quality (by default) 640x480 Moderator/ teacher require approximately 0.40 Mbits/sec
- High Quality 1024x 600 Moderator/ teacher require approximately 0.5 Mbits/sec
- High Definition 1280x720 Moderator/ teacher require approximately 0.6 Mbits/sec

The given images will make it more clear.

- ❖ Moderator Screen

- ❖ Listener or Students require between 20 kbps to 100 kbps

2. How much power does Puucho Live consume ?

Answer. We do not install any android app on phone for the presenter or the viewer. We are simply opening up the link in the browser. Therefore, the power consumption is same as surfing internet on web.

3. What kind of processor does Puucho Live require ?

Answer. Processor is almost used same as that of opening any other website. If your phone/computer is enabled to open one website then that's enough for us.

4. Is Puucho Live dependent upon any external hardware ?

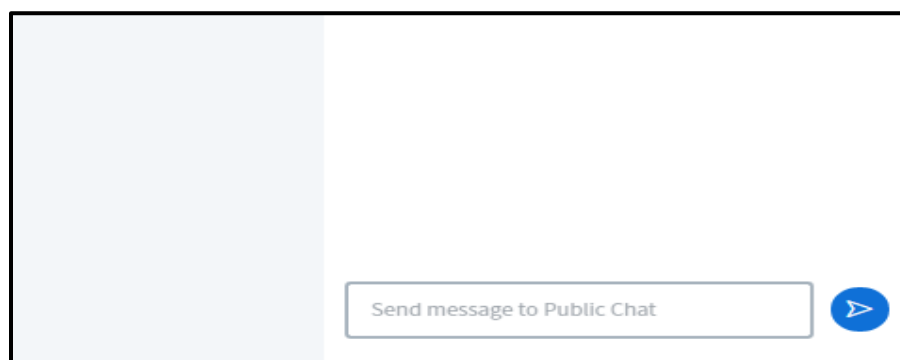

Answer. No, we are not dependent upon any hardware. You can take class/ conduct a meeting in the same way as you do in a class/ conference room by simply writing on the white board we have provide. You do not even need a digital pen for that. You can write on the board using the touch sensor of phone or using mouse or touchpad of PC.

5. Which devices are compatible with Puucho Live ?

Answer. Since we are not installing any application additionally and using the browser of the phone. Therefore, the video conferencing can be done on Android/ Windows/ Apple iOS by using Google Chrome, Mozilla Firefox. Safari or any other latest browser. It works on Desktop , Laptop, Tablet, Apple devices. Basically, Puucho Live works on any device where you can open Google chrome/ Mozilla Firefox or Safari.

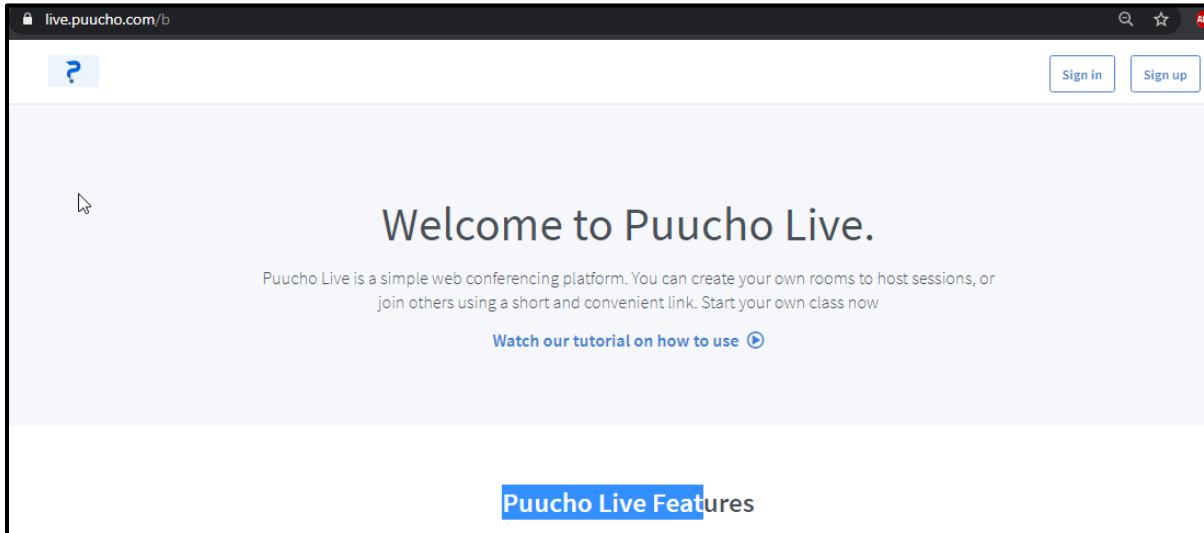

6. Can the participants chat during the class/conference on Puucho Live ?

Answer. Yes, we have a public chat as well as private chat option where the participants can chat in private as well as in public. See the image given below. It will make the point more clear.

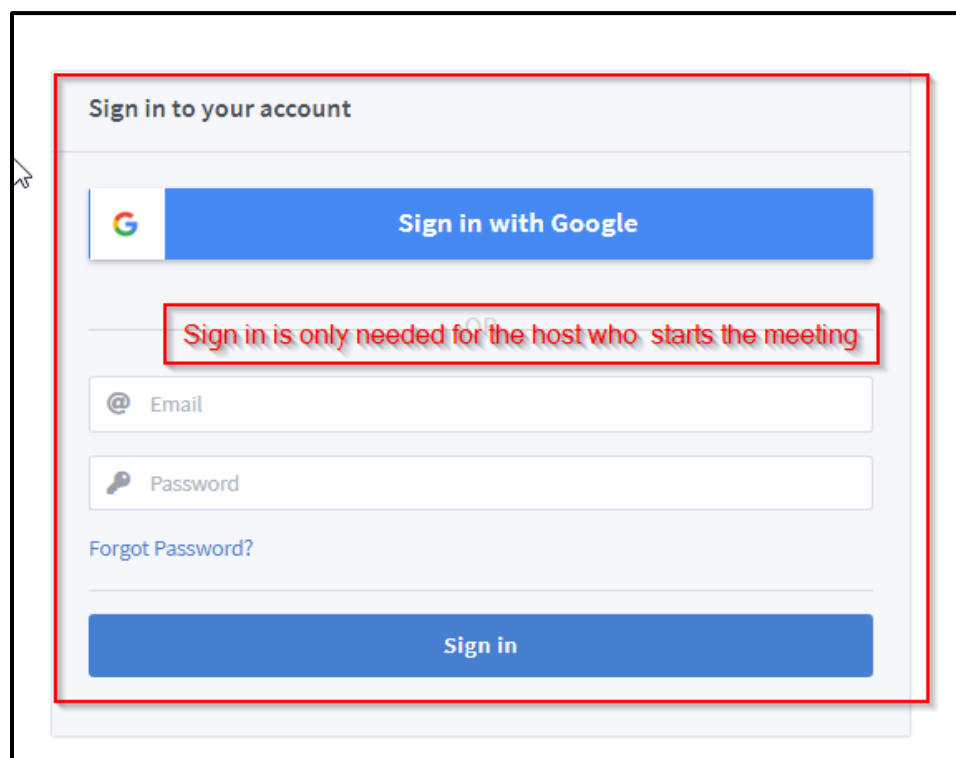

7. Does everybody who joins the conference on Puucho Live need to sign-in or sign-up ?

Answer. No. We have both sign-in and non-sign-in options to join a conference/ class. Only the one who is starting the multi people conference / class will have to sign in. The moderator can start the conference even with an unverified account as well from the sign in option at the top.

Every other member need not to sign in. Other people can simply join by providing their name. However if the host of the meeting wants only authorized people to join the meeting/ class, he can set a password for the meeting which will be asked by everyone willing to join the meeting/ class.

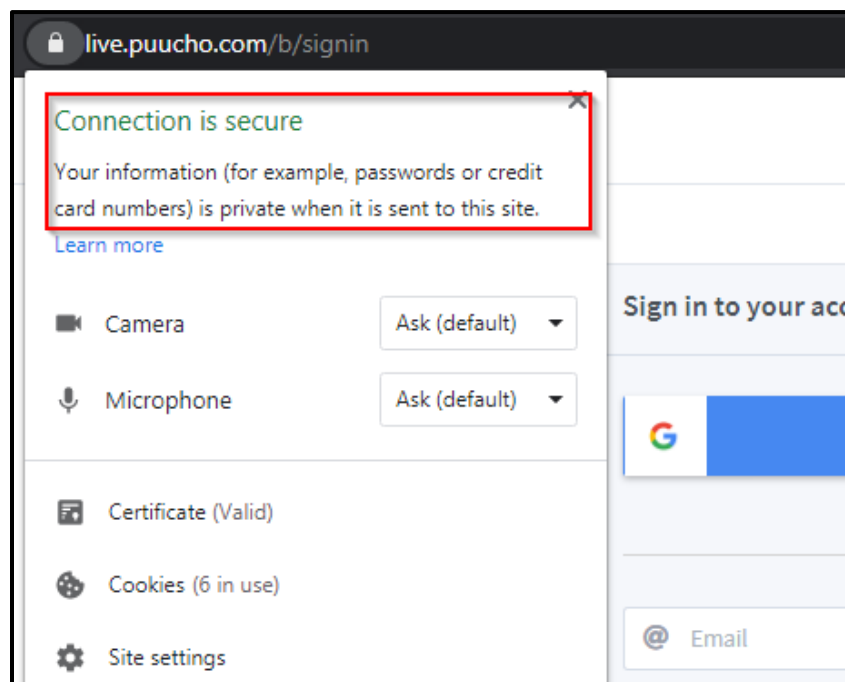

For starting the meeting, the sort of link given in the mage below is needed to be shared. The host can also promote any other participant to moderator thus giving a feel of passing the mic to other member 😊.

8. Is Puucho Live a browser based or App based interface ?

Answer. We are completely browser based interface. This is a benefit as there is no need to install a 50 mb app before the meeting. The meeting can start without any additional app.

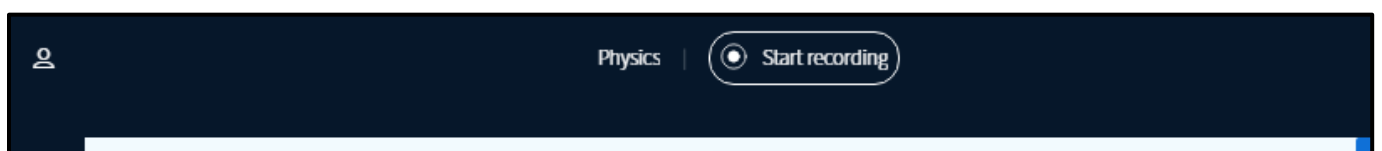

9. Does Puucho Live have encrypted network communication ?

Answer. We have end to end encryption as we have deployed https links and also we have firewalls on the servers which are based in Bangalore. Therefore, none of the data is leaving India at any point of time. There is no way someone else can get in the conference.

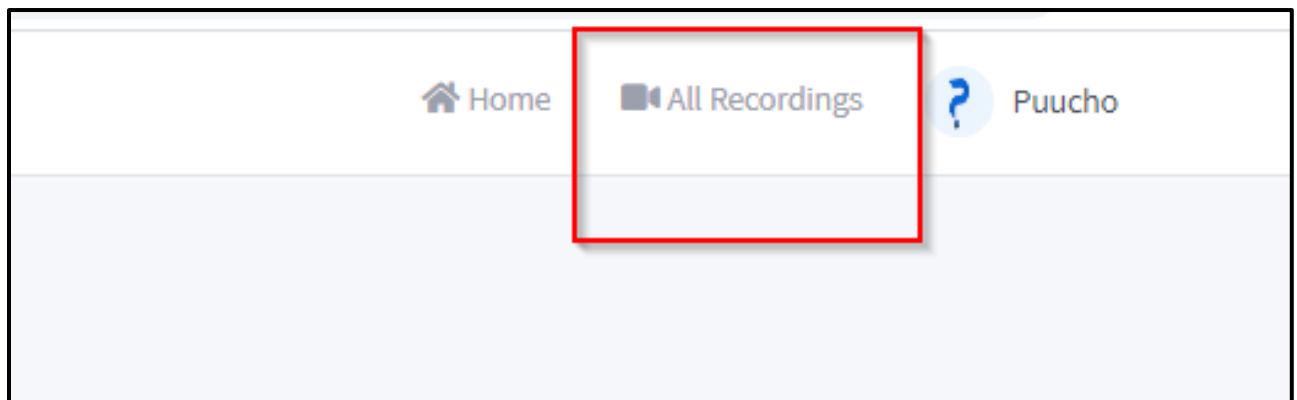

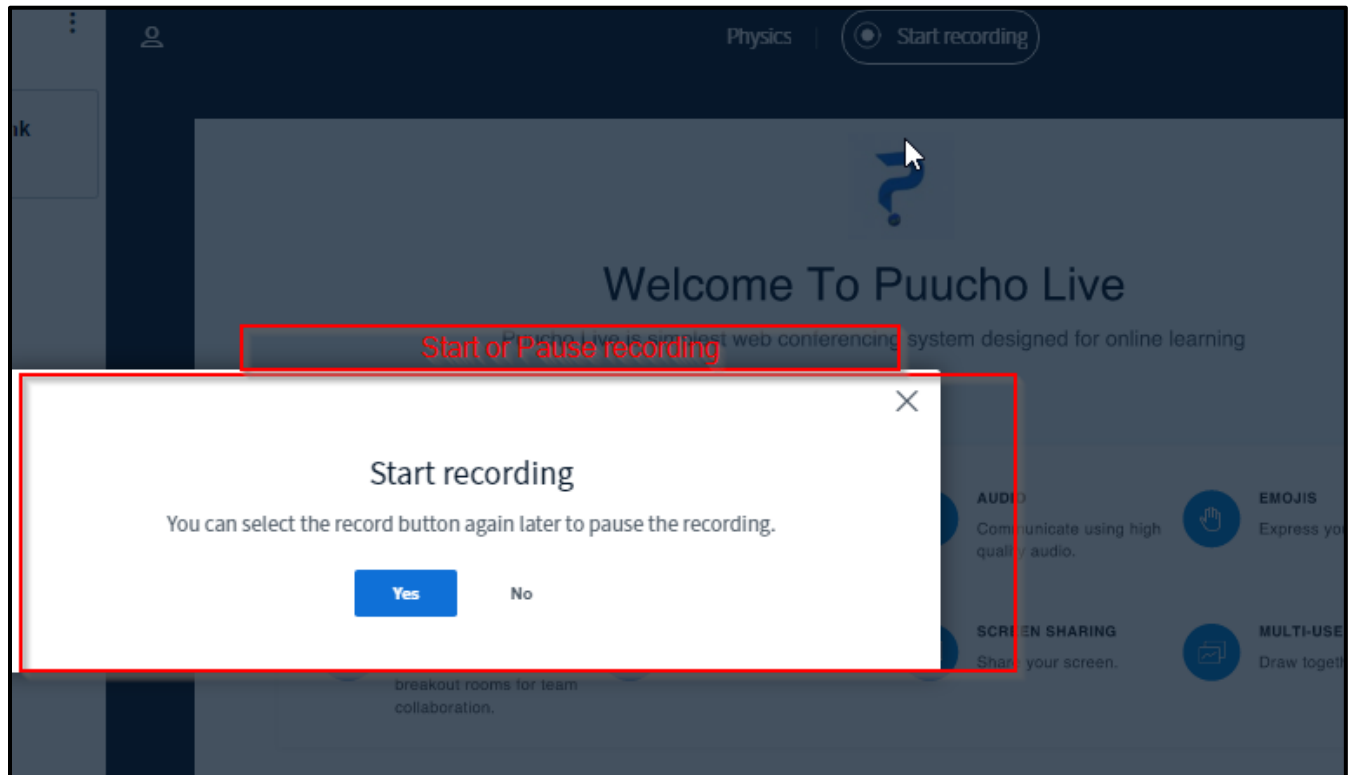

10. Does Puucho Live have audio/ video recording feature ?

Answer. We have Audio/ Video/ Chat/ poll and screen recording which is enabled when the moderator / teacher/ host presses the “start recording button.”

You can start or pause recording just a press of a button. Also the recording is played on the server so no need to have any local file on your system. We have also recordings management tool where you can either make your recording public or private. The recordings are saved in the “All Recordings” tab where you find all your recordings in one page. In the Room Recordings section, you can get all your recordings. You can make a Recording public which can be viewed by all with the link or unlisted which will be viewed only by the host. Also it shows the duration of recording and the number of users who joined the meeting along with the slides.

11. Does Puucho Live offer screen or file sharing ?

Answer. Yes. We offer screen or file sharing. It can be done by first uploading a presentation in any document format like pdf, ppt, word or any office document and then clicking of the screen sharing icon. By default you get the pdf which reads as Welcome to Puucho Live. You can make any presentation like that even. The uploaded file can be downloaded by others or you can also restrict its download.
